I. Background
The California State University Fee Policy, Executive Order 1102, as approved by the CSU Board of Trustees, defines the categories and types of fees that may be charged to students. The president of Call Poly Humboldt has been delegated the authority to establish, adjust, or eliminate campus student fees within the directive of the executive orders. In addition, EO-1102 delineates the methods of consultation to be developed and used before establishing or adjusting campus student fees. In addition, it directs campuses to establish a Student Fee Advisory Committee.

This procedure defines the campus process to establish, adjust, or eliminate campus student fees at Cal Poly Humboldt as required and authorized by the CSU Trustees.

This procedure and process applies to entities within the campus community seeking to establish, adjust, or abolish a campus Category II, III, IV, or V student fee.

II. Fee Category Definitions
   Category I Fees – System-wide mandatory tuition and other fees that must be paid to apply to, enroll in, or attend the university, or to pay the full cost of instruction required of some students by statute. The fee rates are controlled by the Board of Trustees and include: tuition fee, non-resident tuition fee, application fee, and professional program fee.

   Category II Fees – Campus mandatory fees that must be paid to apply to, enroll in, or attend the university. Some examples are: Student Health and Counseling Fee, Instructional Related Activity Fee, and Associated Student Body Fee.

   Category III Fees – Fees associated with state-supported courses. Specifically for materials and services used in concert with the basic foundation of an academic course offering. Some examples are: Materials, Supplies and Facility fee, lab fees, and field trip fees.
Miscellaneous course fees are defined as fees collected for materials, services or use of facilities used in concert with the basic complement of supplies needed for state-supported instruction. Miscellaneous course fees can only be charged for the actual cost of providing exceptional instructional materials, services, or use of an off-campus facility.

**Category IV Fees** – Fees, other than Category II or III fees, paid to receive materials, services, or for the use of facilities provided by the university for activities not related to state-support courses; and fees or deposits to reimburse the university for additional costs resulting from dishonored payments, late submissions, misuse of property or equipment, or as a security or guaranty.

**Category V Fees** – Fees paid to self-support programs such as extended education, CalState Online, parking and housing including materials and services fees, user fees, fines and deposits. Self-support programs are defined as those not receiving state general fund appropriations; instead, fees are collected to pay the full cost of a program. Costs of self-support instructional programs include support and development of the academic quality of the university.

**Category VI Fees** – System-wide voluntary fees, such as the Student Involvement and Representation Fee.

**III. Responsibilities**

A. The president is responsible for assuring that appropriate and meaningful consultation occurs prior to adjusting any campus-based fee and before requesting the chancellor to establish a new Category II or Category III fee.

The president shall establish a Student Fee Advisory Committee comprised of student, faculty, staff, and an administrative representative to provide advice to the president for Category II and III fees. The composition of the Student Fee Advisory Committee is outlined in Executive Memorandum P17-06.

The president is delegated authority to:

- **Category II fees** - Oversight and adjustment of fees, consultation required and a student referendum is expected in order to measure student support.
- **Category III fees** – Establishment or adjustment of fees within a range established by the chancellor defined in EO-1102, consultation required.
- **Category IV fees** - Establishment, oversight, and adjustment of fees, no consultation required.
- **Category V fees** - Establishment, oversight, and adjustment of fees.
B. The Student Fee Advisory Committee shall consider proposals for the establishment and adjustment of Category II or III fees, and shall then make a recommendation to the president. The president shall provide to the Student Fee Advisory Committee a report of all fees in Categories II, III, IV and V. New fees, fee increases, total revenue, and unexpended balances should be included.

D. The Vice President of Administration and Finance (or designee) is assigned the responsibility to serve as staff support to the Student Fee Advisory Committee. He or she will provide consultation, advice, and schedule a convenient time for the committee to review the student fee proposal, make its recommendation, and forward the fee recommendation of the Student Fee Advisory Committee to the president.

E. The entity within Humboldt’s campus community seeking to establish, adjust, or abolish a campus student fee is responsible for the development of the proposal. The proposal must include the signed “Fee Request Form”, a descriptive narrative of the reason or need for the fee, including the typical expenditures that are expected for the use of the fee revenue, and the Financial Data Sheet. See Forms website: Fee Request Form [https://forms.humboldt.edu/fee-request-form]

IV. Approval Process

INITIATING THE STUDENT FEE REQUEST – The entity within the University community seeking to establish or adjust a campus student fee shall work with their division to determine if the fee has support from their vice president. If agreement is reached within the division, then the following information should be submitted to the manager of Student Financial Services:

- Signed Fee Request Form – The purpose of the form is to make sure that appropriate administrators are aware of and support the fee being requested.
- Description Narrative – This will provide reviewers with a clear and concise narrative of the program activity, the need for the fee, the data-driven justification for the level of fee proposed, and the expected use of the fee revenue.
- Historical and/or Prospective Financial Data Sheet – This will identify the types of expenditures that the proposed fee will cover, quantify the
