- II. Public Comment - none.
- I. [Summer Category II Fee Rates](#)
 - o Amber sharing screen and document linked.
 - o Summer session previously through self support, transitioning back to stateside.
 - o Discussed category II fees.
 - o Discussed student health fee. Previously waived because the health center was closed in the summer. However, we have telehealth and some staff; partial health services during the summer term.
 - o Discussed how fees are calculated. Summer is the trailing fee rate. Starting next fall the fee rate will go up. It won't affect this summer but next summer.
 - o Discussed/reviewed proposed fee rate table Fall/Spring 23-24 & Summer 2024.
 - o When looking at other campuses, about half of the campuses offer summer sessions. On average, fees were in the 50-60% range of the fall or spring term, we are consistent and slightly lower landing range.
 - o These rates are already approved and we are agreeing to the methodology vs voting to approve.
